# AGGRESSIVE WEIGHT CONTROL

MULTIPHASE WEIGHT CONTROL TECHNOLOGY

**1 BREAK DOWN FAT**  
**LIPOLYSIS**  
 Break down your body's stored fat into glycerol and fatty acids to be released as energy into your blood stream

**2 MAXIMISE FAT METABOLISM**  
**FAT OXIDATION**  
 Enhance your body's own natural fat-oxidation mechanisms to metabolise fat more effectively and for longer, with the revolutionary thermogenic M-phR™ Multiphase technology

**3 REDUCE FAT FORMATION**  
**REDUCE LIPOGENESIS**  
 Inhibit the process whereby calories (sugars and fat) are being converted to body fat and then stored under the skin as fat mass
